WingAway Weekends · Reviewer checklist

For pilots who know a destination well · wingawayweekends.com · About an hour per guide

> **Thank you for helping.** Each guide is a two-night getaway plan for a pilot and a partner: the airport and FBO, where to stay and eat, what to do and a sample itinerary. You don't need to visit anything new. Just tell us what's right, what's out of date and what you'd recommend instead.

Guide: _____ Reviewer: _____ Date: _____

1 · FLYING IN

- ☐ The airport is the one you'd choose (or suggest a better one)
- ☐ FBO name, address and phone are correct
- ☐ Courtesy car, rental and ground-transport notes are accurate
- ☐ Airspace, terrain and weather cautions are right and complete
- ☐ Fees, hours or parking quirks pilots should know

2 · WHERE TO STAY

- ☐ Each hotel or inn is open and still a good pick for couples
- ☐ The description and category fit (luxury, inn, resort)
- ☐ A better or newer place we should list instead

3 · WHERE TO EAT

- ☐ Each restaurant is open and still worth the trip
- ☐ Days, reservations and dress notes are right
- ☐ A favorite we left out

4 · THINGS TO DO

- ☐ Each item is open, current and worth the time
- ☐ Drive times and distances look realistic
- ☐ Anything seasonal, closed or under repair

5 · SPA, WINE, SHOPPING, EVENTS

- ☐ Spas, wineries, breweries and shops are current
- ☐ Event months and seasons are right

6 · ITINERARY

- ☐ The Friday–Sunday plan is realistic and relaxed
- ☐ The order of stops makes sense geographically

7 · LINKS AND PHOTO

- ☐ Each "Official details" link opens the place's own website (not a booking reseller)
- ☐ Send official links for any place that shows "Website & map"
- ☐ The photo really looks like the destination

8 · FAMILIES

- ☐ Would this weekend work with kids? Yes / No / With changes

How to send your review

1. Email **hello@wingawayweekends.com** with the guide name in the subject.
2. List each change: the place, what's wrong and the fix (paste official website links).
3. When everything looks right, just reply **"lg"** (looks good).

Your credit: with your permission, the guide will say "Reviewed by [your name]," and you'll get an early look at new destinations in your area.

Guidelines: suggest places you'd send a friend; skip chains unless they're the best option; flag closures even if unsure. Flight planning stays with the pilot. The guides are discovery aids, not flight plans.
